

2022

68th Ceramic Sculpture Exhibition

(Foreigners)

1 Purpose

Ceramic sculpture is an interesting sculpture that made by burning earth with rich emotions. The soil allows the shaping of the mind freely, and has the mystery that changes to warmth and solid shape depending on the method of firing. In addition, the story exists in the glossy texture created by glazing. We are looking for such a fun ceramic sculpture.

2 Sponsor

Japan Ceramic Sculpture Association
